“Peers in the Inclusive Classroom- A Dialogue on Programming”

This meeting will consist of a network discussion regarding the use of assessment and screening and how to use information gathered to inform how to individualize for the child. Different models of placement will be discussed including ways to ensure that all children are placed in the most optimal setting for learning. This meeting topic was suggested as a vehicle for programs to better understand and develop consistent methods for placement of children with a wide range of abilities in inclusive early education programs.

Five (5) sessions will be held **throughout the state** at a location near you!

Presentation begins at 9:30 for all sessions.

Please register with the identified contact person in “RED” for the meeting you wish to attend by providing us with your name, position, program and contact information.
